Dr. Peter Bishop is an Associate Professor of Human Sciences at the University of Houston-Clear Lake. He is on the faculty of the graduate program in Studies of the Future where he specializes in techniques for long-term forecasting and planning. Dr. Bishop delivers keynote addresses and conducts seminars on the future for business, government and not-for-profit organizations. He facilitates groups in developing scenarios, visions and strategic plans for the future. Dr. Bishop's clients include IBM, Caltex Petroleum, Toyota Motor Sales, Shell Pipeline Corporation, the Defense Intelligence Agency, the Lawrence Livermore National Laboratory, the W.K. Kellogg Foundation, the Texas Department of Commerce, the City of Las Cruces NM, and the Canadian Radio and Television Commission. Dr. Bishop has also worked with the NASA Johnson Space Center where he designed a database interface used by hundreds of JSC administrators.

Dr. Bishop came to UH-Clear Lake in 1976 to teach research methods and statistics. While active in faculty affairs, he founded a state organization for faculty leaders to participate in state government. Dr. Bishop first taught in 1973 at Georgia Southern College where he specialized in social problems and political sociology. He received his doctoral degree in sociology from Michigan State University in 1974. Dr. Bishop received a bachelor's degree in philosophy from St. Louis University where he also studied mathematics and physics. He grew up in St. Louis, Missouri where he was a member of the Society of Jesus (Jesuits) for seven years. Dr. Bishop is married with two children.

"One of the few, really funny, inspiring men in America today." That's what a convention planner said about Mark Mayfield, and others all over the country echo similar statements.

Mark is one of the rare individuals who performs stand up comedy AND conducts high content seminars; he excites, he educates, and he always entertains. He has received rave reviews, sharing the stage with a variety of celebrities like Paul Newman, Peter Frampton, Colin Powell, and Bob Newhart. He has also introduced the President of the United States on a live, nationwide television broadcast and is a professional model and spokesman in print and television advertising.

He has received two degrees magna cum laude from Kansas State University, served as National President of the Future Farmers of America, taught school, and directed lobbying activities for a FORTUNE 500 corporation.

Known as the "Corporate Comedian", he is a recipient of the "Certified Speaking Professional" recognition, the highest earned designation given by the National Speakers Association. He makes over 100 presentations annually throughout North America, and his trademark is his wit and ability to mix message and humor in the right amounts. From comedy shows to seminars, his philosophy is simple.....say it with humor and people will take the message home.

Mary Fisher has seen life from the corporate corner office as well as the comedy club stage. She has combined an extensive business background in both corporate and government work experience, from front lines to executive level positions with her professional experience in the entertainment industry as an award winning stand up comedian. With this combination of experience, Mary delivers the perfect blend of education and entertainment earning her the reputation of being the Enter"Trainer." She is no stranger to challenge in the workplace. Her father had the first live television show for children in Kansas City. Mary was a regular on this show until her father fired her at the tender age of 4. It seemed she wanted more lines on the show so during a commercial, she threw a Frito bag at her dad. Her message of hope and humor recently earned her a spot on the nationally syndicated "good news" television show Destination Hope.

## Bob Madar

### Concurrent Sessions:

- Principles of Community-Based Project Design  
8:15 a.m. - 9:15 a.m.  
Capital II - June 12, 1998
- Developing and Utilizing Community Resources to Support Student Projects  
9:30 a.m. - 10:30 a.m.  
Capital II - June 12, 1998

Bob Madar's area of expertise is the development and implementation of community-based science programs. He has considerable experience in program design, assessment, and identification and recruitment of mentors. Most of the projects students have completed have focused on ecological studies, generally supplying information on the biological resources of city and county parks to land managers. In addition, some of the information gathered has been used to produce science education materials for K-6 classes. He has developed good relationships with public agencies, private non-profit groups, and industry, and the program is now seen as a resource by the community. He offers insights on the efficacy of community-based programs, authentic assessment, maintaining good relationships with mentors, and dealing with parent concerns. In addition, he can offer general observations on the principles of project design that would be applicable to disciplines other than ecology.
